

HELPING TO MAKE THE GREATER NORTHERN NEW MEXICO AREA HEALTHIER

At Los Alamos Medical Center, our goal is to deliver the best healthcare available in Northern New Mexico as we seek to make our community healthier. With the help of dedicated physicians, employees, volunteers and board members, along with your continued support and encouragement, we continue our passionate pursuit of excellence.

Delivering quality healthcare close to home is the single most important contribution we make. But there are many other ways we make a positive impact on the communities we serve. Here are a few of the other ways we are making a difference.

Over \$5.6 million in capital improvements

During the past year, we completed a major renovation/addition project that created a new services area for Physical Therapy and Cardiopulmonary Rehabilitation, upgraded our Surgical Services department, and brought our Medical Records personnel together in one convenient location.

In addition, we invested more than \$5.6 million in our facilities last year which, in addition to the above, included technology replacement, information technology additions/updates, and routine facility upkeep and maintenance.

We were the first hospital north of Albuquerque to bring digital mammography to the region, and we have added a 16-slice CT scanner, a 16-channel MRI, and stereotactic mammography as well. We are also able to offer anterior hip replacement as the result of acquiring a hana table for our Orthopaedic Surgery product line.

Contributing to our local tax base

Last year, LAMC paid nearly \$4 million in taxes that have helped to support our city, county and state. This included sales taxes as well as property taxes. These dollars help to support local schools, development of roads, recruitment of business and industry, and other needed services.

Helping those in need

LAMC provided more than \$19 million in uncompensated care last year, which included the amounts not covered by government-sponsored programs such as Medicare and Medicaid. This amount includes \$1.9 million for charity care and bad debts, incurred as we cared for many people without sufficient resources.

Adding new physicians

During the past year, LAMC added five new physicians to our highly respected medical staff, including specialists in pediatrics, family practice, internal medicine, general surgery and inpatient care.

One of our community's major employers

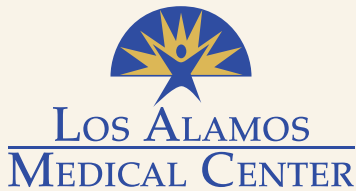

With an annual payroll of \$20.1 million and more than 300 employees, LAMC is one of the largest employers in the region.

We thank you for choosing LAMC for your healthcare needs. With your support, together we can continue making our community healthier.
